PLEASURE NETWORK

Mission

Putting the **needs of creators** first and foremost, Pleasure Network is creating **safe and inclusive** adult platforms, all powered by **Pleasure Coin (\$NSFW)**.

Pleasure platforms maximize the “creator to fan experience” with **fresh, innovative tools** that are designed to promote **meaningful interaction**. Fans will have direct connection with their favorite models through exclusive platforms, allowing creators and users to **unite**, all within a safe and entertainer driven ecosystem. Many platforms, one coin fueling them all!

Utilizing **Pleasure Coin (\$NSFW)**

The Problem

Since inception, the adult industry has consistently pioneered innovative solutions, being responsible for the mass adoption of new technologies...

The adult industry pushed adoption from VHS to Blu-ray to internet streaming, however as centralized web 2.0 solutions enter the market, adult creators are still reliant on traditional payment processors. This forces creators to be beholden to traditional banking solutions, incurring high fees, chargebacks, payment cancellations, and account closures.

The adult industry has grown from studio-controlled content to creator-controlled content. However, the payment options for creator-controlled content are still controlled and dictated by large corporations.

Pleasure Network aims to achieve true individual content creator control of their content and payment, by utilizing the \$NSFW token across the decentralized Pleasure Network platforms.

The Solution: **Pleasure Coin**

A **utility token**, usable within an ecosystem of creator focused applications.

The power of **\$NSFW** utilized within Pleasure Network's Web3 ecosystem will ensure content creators are **compensated** for their content, **without the risk** of chargebacks or frozen accounts.

This also provides the **users** of Pleasure Network's platforms a level of **anonymity** and **freedom** in supporting their favorite creators, without releasing personally identifying information, creating a **safe and secure** ecosystem.

With the **\$NSFW** token powering all of Pleasure Network's current and future adult platforms, we are building a fully **self-sustaining adult ecosystem**. While offering content creators better or greater control over their content and users more anonymity as well as security in supporting their favorite creators.

App: Pleasurely

Pleasure Network is bringing together the **finest features** from existing platforms, creating a **new and innovative** way for fans and creators to connect in the present time. **Pleasurely.com** is the go-to platform for fans and creators to interact, share content, and drive utility to the token.

Payments

All payments on the platform will be in \$NSFW, driving the ultimate utility to the token as well as ensuring that content creators are paid without chargeback.

App: PleasureNifty

Pleasurenifty.com is our NFT marketplace, offering a Web3 experience with **multi-chain minting, rarity tools,** and a **dynamic marketplace** for original and secondary NFT sales. Join us and unlock the full potential of our enhanced platform!

PleasureNifty represents the latest iteration of Pleasure Network's NFT Marketplace, setting the stage for future growth and innovation. The introduction of white label sales on this platform will create additional revenue streams, driving increased profitability for Pleasure Network and **enabling reduced fees for our creators.**

As part of our roadmap, all Pleasure Network platforms will eventually integrate with this Web3 Marketplace.

App: **Pleasureland**

Pleasure Network's metaverse, **Pleasureland** is the first metaverse truly created for an interactive adult experience, **bringing Web3 to virtual worlds.**

Inside Pleasureland is the **Pink Tower**. A 3D virtual, large-scale world, constructed on the blockchain as a data structure of pure pleasure. Use your Pleasure Pad and Pink Dolls any way you choose.

Play, design, party and have sex in your Pad. Rent out your space or even your Doll to **earn \$NSFW**. This world is yours to discover and the Pink Tower is your very own homebase. The 1st building in the Pleasureland metaverse is limited to only **3105 Pleasure Pad** NFT assets.

Visit pleasureland.com for a sneak peak at our **DEMO** and more info.

Why Polygon Network?

The Polygon chain was chosen for our main contract due to its **low** transaction fees and **fast** transaction **speed**.

These **processing speeds** go up to 65,000 TPS (transactions per second), which tops VISA and Mastercard, added in with **extremely fast** block finalization of **less than 2 seconds**. This makes **Polygon** the perfect Layer 2 scaling solution for the Pleasure Network to **operate** and **flourish** in.

Contract Address (Polygon - MATIC):

We're now Multichain!

Besides Polygon, Pleasure Coin is now on Ethereum and Binance Smart chain for even more options.

By offering our token on **different networks**, we increase **accessibility** to a diverse range of users who prefer different ecosystems or chains, thereby **expanding** our own user base. We also benefit from increased liquidity and trading options, providing users with **more alternatives** for buying, selling or swapping.
